SKILLS

- Systems Project Management
- Full-Stack Web Development
- Database Management
- AI & Machine Learning
- Data Analysis
- Teamwork
- Effective Communication
- Critical Thinking
- Time Management

LANGUAGES

- English (Fluent)
- Bemba (Native)
- Nyanja (Intermediate)
- Chinese (Intermediate)

REFERENCE

PROFILE

Results-driven Software Developer with a strong background in artificial intelligence, machine learning, and full-stack development. Skilled in building data-driven and intelligent systems using Python, Django, Java, and MySQL. Passionate about creating efficient, scalable software solutions and leveraging AI to solve real-world problems.

PROJECTS & EXPERIENCE

Payroll Management System

- Developed a robust payroll management system utilizing Django and MySQL.
- Implemented employee management, salary computation, and reporting features, ensuring smooth back-end operations and a user-friendly interface.

Flight Booking Simulator Interface

- Designed an interactive flight booking simulator using Java Swing integrated with a MySQL database (via XAMPP).
- Focused on creating a seamless and responsive user experience by meticulously crafting the interface and ensuring reliable data handling.

Chatbot Development for a U.S. Client

- Collaborated on a group project to build an intelligent chatbot using Google Dialogflow ES
- Successfully integrated a webhook for capturing user data, recording the information in a Google Sheet, and automating email responses to users.

Technical Support & Networking Experience

- CCTV setup (DVR/NVR/IP Cameras – Hikvision Pro certified)-private tenders
- Linux system administration (Ubuntu, Kali, Ubuntu Server)
- Network configuration (LAN/WAN, firewalls, proxies, routing)

EDUCATION

Bachelor of Science in Computing
Cavendish University, Zambia
Status: Exempted to Second Year, Second Semester; expected to complete in December 2025.

Jan 2023 - Dec 2025(Expected)

Bachelor of Computer Science and Technology
Liaoning Shihua University | china
Status: withdrew due to covid-19

Sep 2018 - oct 2020
